

Design Contest

The winner:

This issue's winner is Teddy Droppa of Troy, VA. Teddy sent us his original design entitled the "Omegatron III." This plan will show you how to build an Omegatron III using Centuri parts. As his prize, Teddy has chosen a Saturn V kit.

EM-16 Engine Mount
BFM-10 3/32" thick balsa.
2 sheets
CP-20 Chute
SC-18 Shock Cord
SCF-1 Shock Cord Fastener
LL-3 2 pieces 1/2" in length
Card Stock
Dowels

This design:

This is an unusual design because it looks a little like our SST Shuttle. But the rocket on the back of the main rocket doesn't come off and glide back like the Shuttle. The colors of the original were: white—nose cone, black—piggy-back rocket, olive drab—main rocket. Recommended engines: A8-3, B6-4, C6-5.

You could be the winner of the "Rocket Times Design Contest" if you like to design your own rockets! Build your own imaginative "Bird" from Centuri Rocket Parts. Send us a photo of it along with a simple plan and parts list.

This is an on-going contest. Each winning entry is published in the next "Rocket Times"; which accompanies the mail-order catalog.

Prize

The winner will receive a prize of his or her choice . . . any ONE product from the current Centuri catalog! It can be any model rocket product we make . . . right up to the fantastic Saturn V kit!

Contest rules

1. Entries must consist of a photograph of the model, and a drawing which includes a parts list, and your name and address.
2. Entries must be flight worthy and not copies of kit designs produced by model rocket manufacturing companies.
3. Entries become the property of Centuri and can not be returned.
4. Employees of model rocket companies and their families are not eligible.
5. Entries judged on originality, neatness, practicality and completeness.
6. Do not send the actual model.
7. Send as many DIFFERENT entries as you like, but no duplicates.
8. There is no deadline. A winner is selected just before each issue of Rocket Times goes to press, and notified by mail.
9. Specify which prize you want if you win.

THE PHOTO!**

Design tips

- Take your time to do a good job.
- Use your imagination.
- Don't copy existing designs.
- Try some really experimental ideas.
- Avoid large fins too far forward.
- Choose from available parts.
- Make your entry clear and readable.
