PRICES IN THE ENERJET CATALOG

All prices in this catalog take effect June 15, 1972 and replace those in previous catalogs. Prices are subject to change without notice.

MODEL ROCKET MOTOR SHIPMENTS ORDERS CONTAINING ONE OR MORE F67 SERIES MOTORS MUST BE SHIPPED EXPRESS

(Postal regulations currently prohibit shipment of model motors containing over .25 grams of propellant). Until this ruling is changed we must ship F67 motors via Express. If your order contains kits, parts, E24 or F52 motors and also includes F67 motors you will save money if we ship the entire order Express rather than divide the shipment and send you two packages - one mail, one express - each with its own charges.

All Express Orders will be shipped to you charges collect. Express rates fluctuate constantly. Rather than over-charge you (or under-charge) you need only pay the exact and correct amount at the time you receive your order.

GROUP PURCHASES SAVE YOU MONEY!

The minimum express charge pays for shipment of a package weighing up to ten pounds! A ten pound package costs no more to ship than a one pound package. If everyone in your club or group orders together you can share the Express charges. But remember, only packages containing F67 motors must be shipped via Express.
