ROCKET  
KITS**

Robert Turner's Falcon

Tiffany Hobbies of Ypsilanti would like to welcome you to our 1992 - 1993 catalog. In this catalog you will find our company's collection of high-quality, high-tech kits and rocket parts. We have kits that are designed for the beginner as well as advanced rocketeers.

New kits for 1992 are:

- Ruff
- Jaeger
- Hornet
- Accentor
- Condor

Most of Tiffany Hobbies kits now include a motor adapter. Allowing the rocketeer to use a broad range of rocket motors.

All Tiffany Hobbies kits include the following:

- Heavy duty motor mounts
- High strength body tubes
- Body tubes are pre-marked for fin slots
- High quality launch lugs
- Plastic nose cones
- Pre-cut aircraft grade plywood fins
- High quality plywood centering rings
- Elastic shock cords sewn to a braided steel shock cord mount cable
- Rip-stop nylon parachutes with a small shock cord sewn on
- Fin mounting through-the-wall to the motor mount
- Complete easy to follow instructions

Not included in these kits are motors, finishing supplies, adhesives, and launch systems.

Thank you very much for your interest.

Richard S. Rau

## HEAVY DUTY LAUNCH PAD

This launch pad has been designed for a 1/4" or 1/2" launch rod. The angle of the launch rod is adjustable. The legs can be collapsed for storage. Comes with a 5" x 7" blast deflector.

*Note: Launch rod and rocket sold separately*

Stainless Steel Launch Rod  
1/2" or 1/4"

1/4"Diameter, 6' Length  
Catalog # LR-.25-6

1/2"Diameter, 6' Length  
Catalog # LR-.5-6

*Ask for our catalog covering advanced rocketry building materials*

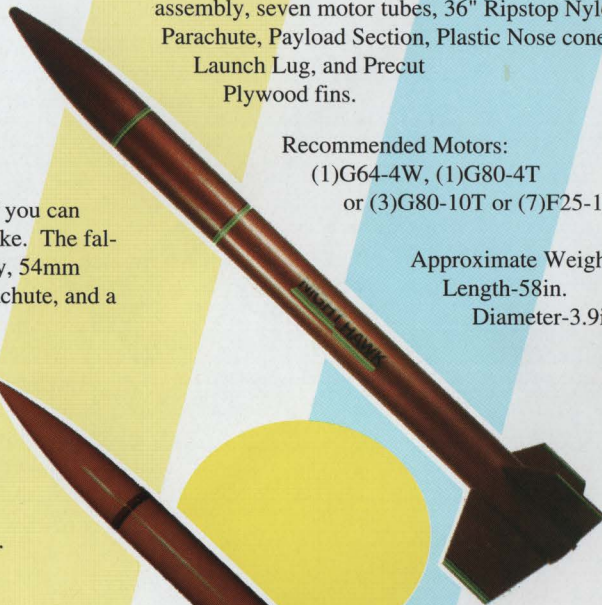

## NIGHT HAWK

The Night Hawk May be loaded with up to seven motors for peak performance. The kit features fast assembly, seven motor tubes, 36" Ripstop Nylon Parachute, Payload Section, Plastic Nose cone, 1/2" Launch Lug, and Precut Plywood fins.

### Recommended Motors:

(1)G64-4W, (1)G80-4T  
or (3)G80-10T or (7)F25-12

Approximate Weight-31oz.  
Length-58in.  
Diameter-3.9in.

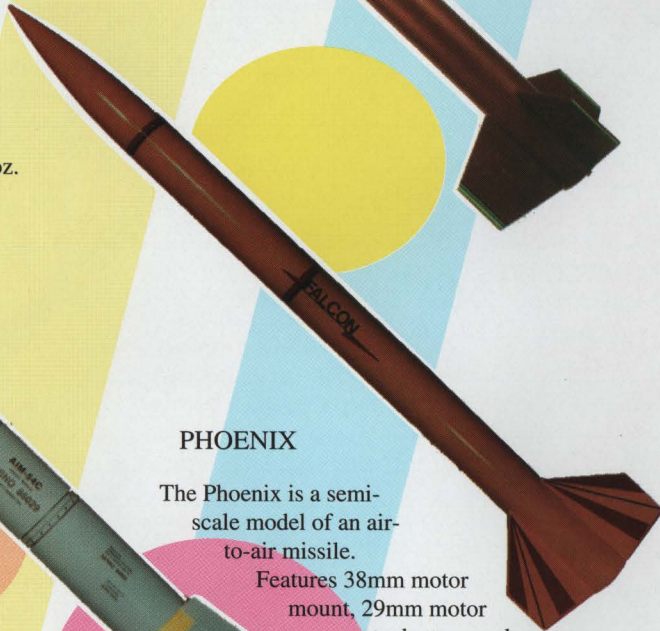

## FALCON

When this rocket blasts off you can almost feel the ground shake. The falcon features easy assembly, 54mm motor mount, big 36" parachute, and a 17" Payload tube.

### Recommended

Motors:  
G64-4W, G40-4W,  
G80-4T,  
I65-10, J125-10

Approximate Weight-30oz.  
Length-74in.  
Diameter-3.9in.

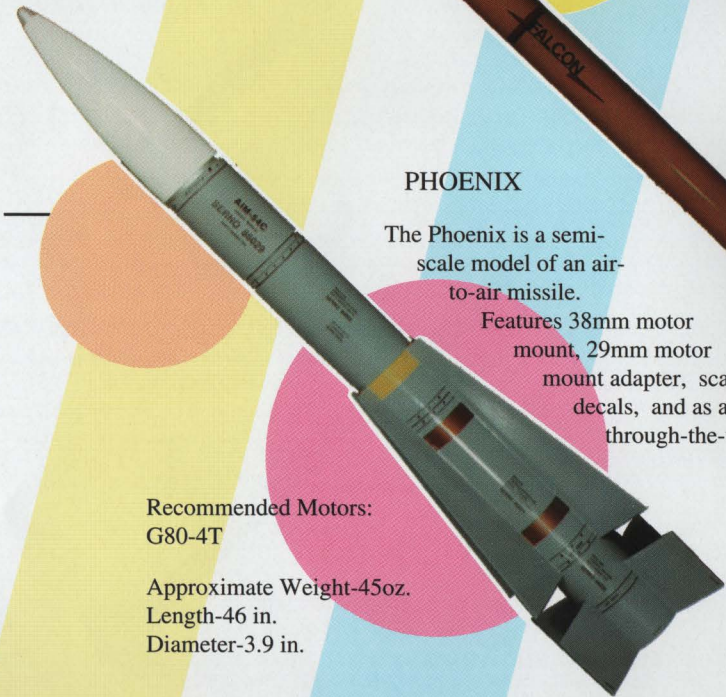

## PHOENIX

The Phoenix is a semi-scale model of an air-to-air missile.

Features 38mm motor mount, 29mm motor mount adapter, scale decals, and as all THOY kits through-the-wall fin mounting.

Recommended Motors:  
G80-4T

Approximate Weight-45oz.  
Length-46 in.  
Diameter-3.9 in.

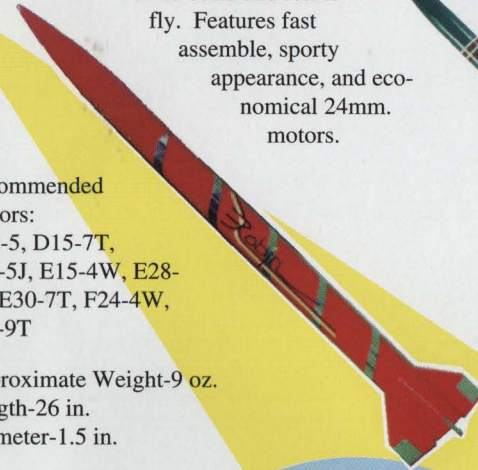

## ROBIN

Fun to build and fun to fly. Features fast assemble, sporty appearance, and economical 24mm. motors.

### Recommended

Motors:  
D12-5, D15-7T,  
E11-5J, E15-4W, E28-7T, E30-7T, F24-4W, F39-9T

Approximate Weight-9 oz.  
Length-26 in.  
Diameter-1.5 in.

## WASP

This near minimum diameter rocket is capable of exceeding MACH ONE. Features 18" parachute, 29mm motor mount, and a 24mm motor adapter.

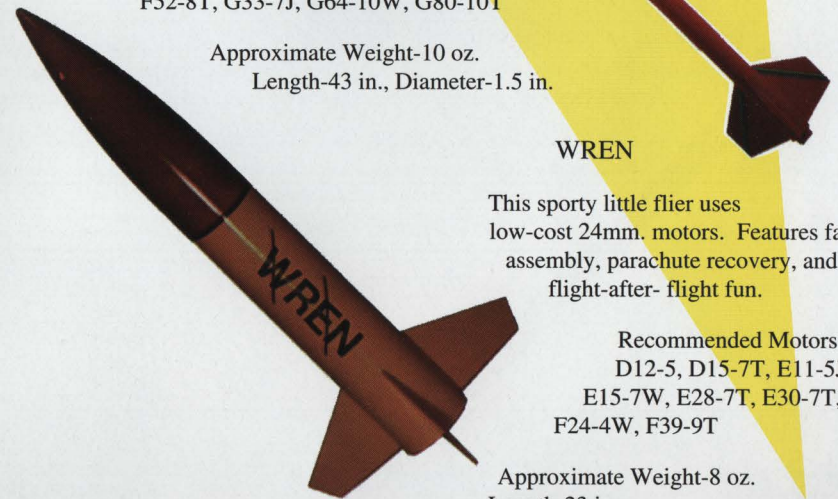

### Recommended Motors:

24mm Motors:  
D15-7T, E11-5J, E15-4W, E30-4T, F24-4W, F39-9T

### 29mm Motors:

E16-4W, F14-6J, F22-7J, F40-7W, F50-9T, F52-8T, G33-7J, G64-10W, G80-10T

Approximate Weight-10 oz.  
Length-43 in., Diameter-1.5 in.

## RUFF

High performance is what the Ruff is all about. Features 18" parachute, 29mm motor mount, and a 24mm motor adapter. The Ruff is one of our strongest, high flying rockets.

### Recommended Motors:

24mm Motors:  
D15-7T, E11-5J, E15-4W, E30-4T, F24-4W, F39-9T

### 29mm Motors:

E16-4W, F14-6J, F22-7J, F40-7W, F50-9T, F52-8T, G33-7J, G64-10W, G80-10T

Approximate Weight-10 oz.,  
Length-43 in.,  
Diameter-1.5 in.

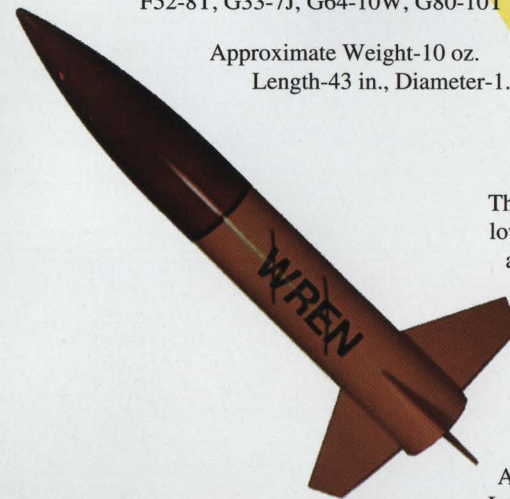

## WREN

This sporty little flier uses low-cost 24mm. motors. Features fast assembly, parachute recovery, and flight-after-flight fun.

### Recommended Motors:

D12-5, D15-7T, E11-5J, E15-7W, E28-7T, E30-7T, F24-4W, F39-9T

Approximate Weight-8 oz.  
Length-23 in.  
Diameter -2.6 in.

## JAEGER

Jaeger-sleek, sporty, and easy to build. Features 18" parachute, 29mm motor mount, 24mm motor adapter, and a 17" payload tube.

Recommended Motors:  
24mm Motors:  
E15-4W, E30-4T, F24-4W, F39-9T  
29mm Motors:  
E16-4W, F22-7J, F40-7W, F50-9T, F52-8T, G64-10W, G80-10T

Approximate Weight-10 oz.  
Length-43 in.

Diameter-1.5 in.

## SPARROW HAWK

The Sparrow Hawk is a good kit for the beginner as well as the advanced rocketeer.

Recommended Motors:  
24mm Motors  
E11-3J, E15-4W, E18-4W, E28-4T, E30-4T, F24-4W, F39-6T

29mm Motors  
F14-4J, F22-5J, F25-6W, F40-7W, F50-6T, F52-8T, G33-5J, G40-7W, G64-7W, G80-10T

Approximate Weight-14oz.  
Length-43in.

Diameter-2.6in.

## HORNET

High performance and outstanding flights. Featuring fin mounting, 29mm motor mount, 24mm motor adapter, and 24" parachute.

Recommended Motors:  
24mm Motors  
D15-4T, E15-4W, E18-4W, E28-4T, E30-4T, F39-6T  
29mm Motors  
F25-6W, F40-7W, F52-8T, G33-5J, G64-7W, G80-10T

Approximate Weight-14oz.  
Length-44in.  
Diameter-2.6in.

## ACCENTOR

This sporty flier stands over 4 feet tall. Making outstanding flights with a 24mm or 29mm motor. Using a 28" fluorescent orange parachute makes it easy to spot in the sky.

Recommended Motors:  
24mm Motors  
F12-3J, F39-6T

29mm Motors  
F25-6W, F40-7W, F50-6T, F52-8T, G33-5J, G64-7W, G80-7, H55-10, H70-10, H120-10  
Approximate Weight-20oz.  
Length-53 in., Diameter-2.6 in.

## CONDOR

This 4 foot 10 inch tall rocket makes outrageous flights. This high performance rocket uses one 29mm motor. The Condor will make you excel in rocketry.

Recommended Motors:  
24mm Motors  
F12-3J, F39-6T  
29mm Motors  
F25-6W, F40-7W, F50-6T, F52-8T, G33-5J, G64-7W, G80-7, H55-10, H70-10, H120-10

Approximate Weight-18 oz., Length-58 in., Diameter-2.6 in.

## IBIS

The Ibis is a futuristic looking rocket. With a 10" payload section and a 29mm. motor mount.

Recommended Motors:  
24mm Motors  
F12-3J, F39-6T  
29mm Motors  
F25-6W, F40-7W, F50-6T, F52-8T, G33-5J, G64-7W, G80-7, H55-10, H70-10, H120-10

Approximate Weight-18oz.  
Length-58in.  
Diameter-2.6in.

## PEACOCK

The spectators will stand in awe as the Peacock bolts into the sky. This is a very stable flying rocket that can achieve very high altitude. This rocket is appropriate for beginners as well as the more advanced rocketeers.

Recommended Motors:  
24mm Motors  
F12-3J, F39-6T  
29mm Motors  
F25-6W, F40-7W, F50-6T, F52-8T, G33-5J, G64-7W, G80-7, H55-10, H70-10, H120-10

Approximate Weight-20oz., Length-53 in., Diameter-2.6 in.

## SNIPE

The Snipe is a high performance sport rocket capable of achieving high altitude with a payload. The Snipe uses three 24mm motors.

Recommended Motors:  
(3) D12-3, (3) D15-7T, (3) E11-5J,  
(3) E15-7W, (3) E18-7W, (3) E28-7W,  
(3) E30-7T, (3) F24-7W, (3) F39-12T

Approximate Weight-18 oz., Length-59 in.  
Diameter-2.6 in.

KIT NAME	DESCRIPTION AND SPECS						
	DIAM	LNTH("s)	WT	CHUTE("s)	SH CORD	MMT	MOTORS
5.5" SKYRAIDER	This lightweight sport rocket is a great way to get into 5.5" diameter kits. This rocket is simple and straight-forward, yet has many quality features such as pre-slotted, bright white body tube, heavy duty bungie, 3/16" ply fins, fiberglass cone.						
	5.5	66	6 lbs	60	15' 3/8" bungie	54mm	H242-6*,I161-6*,J357-8*,J275-10
7.6" SKYRAIDER	This massive rocket is an excellent flier. The large, swept fins provide absolute stability. Lots of options with 1-54mm and 2-38mm outboards. The 60" body tube is bright white and pre-slotted for speed and ease of construction. FIRM mounts are standard.						
	7.6	89	12 lbs	72	25' / 3/8" bungie	1-54 + 2-38	I284-6*,J500-6*,J460-8*,J415-10
2.6" STANDARD ARM	The 2.6" ARM is a semi-scale model of the real Standard ARM (Anti-Radiation Missile). A White Lightning "G" motor produces a realistic flight to 1800 feet. FIRM fin mount is standard.						
	2.6	43	24 oz	24	8' / 1/8" bungie	29mm	F25-6,F50-6,G40-7,G64-7
4" STANDARD ARM	This impressive rocket boosts as straight as an arrow on "H" and "I" class motors. Strakes and unique fin design enhance appearance. Altitudes of over 3000 feet are easily attained with "I" class motors. FIRM mount is standard.						
	4	67	3.75 lbs	36	9' / 1/4" bungie	54mm	H180-6*,H238-6*,I211-10*,I220-10
5.5" STANDARD ARM	This model of the ARM is based on the popular 5.5" diameter body tube. Very impressive rocket - yet this model can be boosted on as little as an I284. Over 7 1/2 feet tall, FIRM mount, fiberglass nose cone. Flights to over 3700 feet possible with a K550!						
	5.5	92	10.5 lbs	84	25' / 3/8" bungie	1-54 + 4-29	I284-6,J415-10,K550-10
7.6" STANDARD ARM	This baby is huge! Our 7.6" model of the ARM is 10 feet tall. As with most all 'Cluster R' kits, the 7.6" ARM utilizes the FIRM mount. The nose cone is hand-laid gelcoated fiberglass, tube is pre-slotted. Flights to over 2200 feet are possible with an Aerotech K550.						
	7.6	119	20 lbs	120	25' / 1/2" bungie	5-54	single K550-8,single K1100-10
1.5" STILETTO	This 38mm minimum diameter sport rocket flies to 2400 feet on a G40-7. 17" payload section is standard. Fins are surface mounted. Fin area is generous since this rocket was designed for the heavy, black powder Silver Streak motors.						
	1.52	59	20 oz	24	8' / 1/8" bungie	38mm	F25-6*,G40-7*,G160-9
2.6" STRATTO BLASTER	The Stratto Blaster is a small sport rocket capable of impressive flights on E, F, and G motors. Altitudes of 2200 feet are expected on a G40-7. Fins are made of plywood and are surface mounted.						
	2.6	28	12 oz	24	3' / 1/8" bungie	29mm	D12-3*,E15-4*,F100-6*,G80-10

## F I R M

FIN with INTERNAL ROOT MOUNT. This system mounts the root edge of the fin into channel structure on the motor tube, producing a high strength fin unit.

\*Before ordering, please note that a motor adapter may be required.

Altitude projections determined with Rogers Aerospace software. All weights are approximations.

Prices and specifications are subject to change.

G-10 fins are now optional - available at a slightly higher price.

## ROCKET R & D

kits formerly known as 'CLUSTER R'

KIT NAME	DESCRIPTION AND SPECS						MOTORS
	DIAM	LNGTH("s)	WT	CHUTE("s)	SH CORD	MMT	
<b>2.6" ARMY HAWK</b>	This semi-scale model of the Hawk surface-to-air missile (SAM) boosts to 1800 feet on a white column of smoke and flame when launched with an Aerotech G40-7 motor. FIRM mounts.						
	2.6	43	24 oz	24	9' / 1/8" bungie	29mm	F25-6,F50-6,G40-7,G64-7
<b>4" ARMY HAWK</b>	This model of the Hawk SAM flies to out-of-sight altitudes of 3400 feet on an "I" motor. Standard 54mm motor mount allows for a wide range of motor possibilities. FIRM mount is standard.						
	4	67	4.75 lbs	44	15' / 1/4" bungie	54mm	H180-6*,H238-6*,I211-8*,I220-10
<b>2.6" JAYHAWK</b>	The Jayhawk (2.6) is a small, semi-scale model of the Jayhawk target drone. This rocket, like the Stratto Blaster, is very light weight with surface mount plywood fins and canards.						
	2.6	36	13 oz	24	6' / 1/8" bungie	29mm	E15-4*,F25-6
<b>4" JAYHAWK</b>	The 4" Jayhawk is a larger version of the Jayhawk target drone. This rocket, utilizing 1/8" and 3/16" plywood and FIRM fin mounts, is strong, yet relatively light for a 4" rocket. "I" motors are NOT recommended!						
	4	50	36 oz	36	15' / 3/16" bungie	38mm	G104-6*,G80-4*,H128-8*
<b>2.6" NAVY STRIKE</b>	The 2.6" Navy Strike, with its military style, makes an impressive display with "H" sized White Lightning motors. This rocket flies to over 2000 feet on an H123 motor. FIRM fin mount is standard.						
	2.6	58	35 oz	30	10' / 3/16" bungie	38mm	G80-4*,G104-6*,H128-8*,G160-7
<b>4" NAVY STRIKE</b>	This military style missile is a real eye catcher! Two stage appearance and strakes enhance this rocket's visual appeal. Flights to over 2500 feet are attained with full "I" or low end "J" motors. FIRM mount is standard. NOTE: This rocket is SINGLE STAGE.						
	4	84	4.75 lbs	44	15' / 1/4" bungie	54mm	H180-6*,H238-6*,I211-8*,J180-10
<b>2.6" SANDHAWK</b>	The Sandhawk is a semi scale model of the Sandia Sandhawk sounding rocket. This long, sleek rocket is extremely stable. 38mm mount allows the use of G160 Silver Streak motors. Flights to 2500 feet are possible with a mid "H" motor. FIRM mount is standard.						
	2.6	58	29 oz	30	10' / 3/16" bungie	38mm	F50-4*,G40-4*,G64-7*,H128-10*
<b>4" SANDHAWK</b>	This version of the Sandhawk sounding rocket is impressive at 7 feet tall. "H", "I" and "J" motors are no problem for this bird. The 4" Sandhawk will 3300 feet on an Aerotech J180-10. FIRM fin mount is standard.						
	4	84	4.75 lbs	48	15' / 1/4" bungie	54mm	H180-6*,H238-6*,I211-8*,I220-10
<b>5.5" SANDHAWK</b>	If you like very large rockets, you'll love this kit! Standing over 9 feet tall, this model of the Sandia Sandhawk is sure to impress your friends. The fin tab is mounted into hardwood FIRM mounts. Nose cone is a gelcoated, fiberglass beauty. The tube is pre-slotted as with all other "Cluster R" kits which utilize FIRM mounts. Flights to over 3500 feet are possible with an Aerotech K550.						
	5.5	111	15 lbs	96	20' / 3/8" bungie	1-54 + 2-29	J415-8,K550-10
<b>3.1" SERGEANT</b>	This model of the Sergeant Missile really loves "G" motors! This rocket will make a quick trip to over 1500 feet on a G160 Silver Streak motor. Straight forward, stable design promises many nominal flights. FIRM mounts are standard.						
	3.1	45	29 oz	30	8' / 3/16" bungie	38mm	G40-4*,G64-7*,G160-7

## F I R M

**FIN with INTERNAL ROOT MOUNT.** This system mounts the root edge of the fin into channel structure on the motor tube, producing a high strength fin unit.

**\* Before ordering, please note that a motor adapter may be required.**

<b>SHIPPING &amp; ORDERING INFORMATION</b>			
If your order totals:			
\$000.01 - 150.00, add	6.00		
\$150.01 - 250.00, add	4.00		
\$250.01 and over, add	2.00		
Orders which include 5.5" & 7.6" tubes or kits are over-sized, so please add \$10.75 instead of the table above. Orders including 4" or smaller kits or tubes, add \$1.50 to the table.			
Sub-total			
IL residents, add 7.25%
