

# ORBITAL INTERCEPTOR

SKILL LEVEL 2 – Recommended for Intermediate Rocketeers.

## BEFORE YOU START

Read all instructions before beginning work on your model. Make sure you have all parts and materials. When you are thoroughly familiar with the assembly procedure, begin construction. Check off each step as you complete it. In each step, test-fit the parts together before applying any glue. If some part doesn't fit properly, sand lightly or build up as required for precision assembly.

## TOOLS AND MATERIALS

In addition to the parts included in this kit you will need: Scissors, white glue (Titebond, Elmer's, or similar), a sharp model knife, pencil, ruler, sandpaper, sanding sealer, masking tape, paint brush, wax paper, a hard back book, dowels, gloss white spray paint and insignia blue spray paint.
